

Tom Yujun Wu

📍 Chapel Hill, NC, US ✉ tomwu@unc.edu 🔗 tomwurdz.github.io

Education

Ph.D	University of North Carolina at Chapel Hill , Physics	Chapel Hill, US
	• Advisor: Prof. Carl Rodriguez • Research Interest: Gravitational Waves, Compact Objects, Astrodynamics	Aug 2025 -
Hons. B.Sc	University of Toronto , Astrophysics and Computer Science	Toronto, Canada
	• Advisor: Prof. Maya Fishbach • Degree: Astronomy and Physics Specialist, Computer Science Major • Graduated with High Distinction	Sep 2021 - May 2025
High School	High School Affiliated to Renmin University of China (RDFZ)	Beijing, China
	• Top High School in China	Sep 2018 - Jul 2021

Employment

Department of Physics and Astronomy, UNC-Chapel Hill	2026
• Research Assistant	
Department of Physics and Astronomy, UNC-Chapel Hill	2025-2026
• Teaching Assistant - ASTR100, ASTR100L, ASTR103, PHYS89, PHYS118, PHYS119	
Department of Astronomy & Astrophysics, University of Toronto	2024-2025
• Teaching Assistant - AST101, AST201	

First Author Publications

Are Long Gamma-Ray Bursts Progenitors to Merging Binary Black Holes?	ApJ
T. Y. Wu, M. Fishbach	2024
10.3847/1538-4357/ad98ed 🔗	

Co-authored and Collaboration Publications

Implications of low neutron star merger rates for gamma-ray bursts, r-process production and Galactic double neutron stars	ApJL accepted
M.Fishbach, A.P.Ji, W-F.Fong, T. Y. Wu , J.C.Rastinejad, A.Vijaykumar, H-Y.Chen	2026
10.48550/arXiv.2604.05059 🔗	
GWTC-4.0: Population Properties of Merging Compact Binaries	ApJL
<i>The LIGO Scientific Collaboration et al.</i> (including T. Y. Wu)	2025
10.3847/2041-8213/ae771e 🔗	
Contribution: calculated binary neutron star merger rates.	
News Coverage by CITA 🔗	
Upper Limits on the Isotropic Gravitational-Wave Background from the first part of LIGO, Virgo, and KAGRA's fourth Observing Run	2025
<i>The LIGO Scientific Collaboration et al.</i> (including T. Y. Wu)	
10.48550/arXiv.2508.20721 🔗	
Contribution: computed binary neutron star merger rates under specified spin-distribution assumptions.	

Contributed Talks

16th International LISA Symposium, MD, US

2026

- From BBHs to EMRIs: How IMBHs Shape Globular Cluster Merger Populations

Awards and Scholarships

Travel Grant - 16th International LISA Symposium

2026

- \$1295 USD from NASA

University of Toronto - Dean's List Scholar

2022, 2023, 2024, 2025

Victoria College - The Regents In-course Scholarship

2022, 2023, 2024

Undergraduate Summer Research Exchange Award

2023

University of Toronto Admissions Scholarship

2021

The International Mathematical Modeling Challenge

2020

- Global Meritorious Award, Top 4 among 54 invited teams from 30 countries.
- Greater China Region Outstanding Award, Top 8 among 650 teams.
